"People in the Boston Civic Symphony are quite excited about the Walk for Music 2009. Last year, [in our first year,] we collected \$10,500 in pledges and were also able to get an \$11,000 grant related to that effort. This represented about 20% of our operating budget and was truly the reason we were able to continue with a full season this year. We can't thank you enough for providing that opportunity."
